

# How do you attract the best Technology talent to help grow your business?

## Develop and market your value proposition specifically for recruitment.

Align your talent acquisition strategy with your business strategy.

## Engage with universities to attract the top graduates

40% decline in Australia over the last 10 years of graduates completing Technology degrees yet job opportunities have doubled.

## Put diversity on your agenda

Less than 1/3 of the worldwide workforces at most major technology companies including Google, Apple and Facebook, are comprised of women.

## Develop succession plans for you high performing talent.

Proactive approach to managing talent, identifying high potentials for anticipated future needs so that there is a leadership pipeline available to meet organisational demands as they arise.
